Allowable Subject Matter

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance: ***

Applicant has cancelled the broader claims 17-19 which were rejected on prior art. The previously allowed claims 1-16 call for a split nut structure that includes three semi-annular nut segments that are hinged together in which two of the segments include internal threads while the third hinged segment is left unthreaded. The three segments can be hinged together to provide a closed nut with a partially threaded bore. No prior art teaching was found that discloses or suggests this hinged split nut structural combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Neill R. Wilson whose telephone number is 703-308-0164. The examiner can normally be reached on Mon.-Thurs..
